SIERRA MADRE

The Wistaria Town, name-
sake of the "Mother Moun-
tains" that brood above
her; beautiful for fragrant
orchards, wide vistas and
sheltering oaks; satisfying
for city comforts, country
quietness, and friendly,
welcoming hands.

FRIDAY, OCTOBER 24, 1924

Art Program Pleasing To Womans Club

MRS. ELMER A. GREEN
(Press Correspondent)

The second meeting of the year of the Sierra Madre Woman's Club was held on Wednesday, October 22. The afternoon was devoted to American Arts and Crafts and was a most delightful and inspiring one for those fortunate enough to be present.

Preeminently master craftsman were the words Mrs. Stork used to introduce the speakers, Mr. Porter Blanchard and Mr. Douglas Donaldson. Her reading of Kipling's poem "The Craftsman's Prayer" was a fitting tribute to the two artists.

Mr. Blanchard, the first speaker, gave a brief outline of the arts and crafts movement in America, a movement started in Boston some fifteen years ago, the influence of which is now felt throughout the world. Mr. Blanchard's coming to Los Angeles is a direct result of California's advertising campaign. He is staying here, absorbing all that he can of the work which is being done in the west, in the meanwhile making an earnest effort to stimulate an appreciation for the sort of thing which he stands for and is trying to do.

Mr. Blanchard's talk was in a sense biographical, his love for his work and his familiarity with it having been developed in boyhood for his father was a famous silversmith in Concord, New Hampshire, and the son says that in spite of his desire to work with a machine and not with his hands, he has found it impossible to do so, but has instead followed his father and those others who have held their own against the strong machine influence which has surrounded them.

In conclusion Mr. Blanchard demonstrated the method used to develop a finished product from the plain bars of sterling silver as they come to the silversmith and he exhibited several very lovely pieces of silver made by his own hands.

Mr. Donaldson approached his subject of Interior Decoration in an unusual and interesting manner and his informality of expression was charming. Interior decoration is in life the pursuit and attainment of happiness. No matter how correct or expensive our homes may be there is no beauty without happiness and there can be no happiness without peace and harmony. Mr. Donaldson claims that the universe is turning in the direction of what Emerson calls "beautiful necessity" and that science, religion and art are looking at this beautiful necessity as a philosophy of life. He calls his work a picturesque work, one heretofore seeming to belong to woman's realm but now men are showing their appreciation of it and it is being developed more along natural fundamental principles of harmony, sub-ordination and rhythm.

The beauty of the afternoon was deeply appreciated and later over the tea cups were heard words of true happiness.

Mrs. John Osgood and Mrs. W. H. Ingraham will be co-chairmen for the Chamber of Commerce dinner Friday evening.

For the Voter
At eight o'clock on Thursday evening, October 30th, a meeting will be held in the club house for the purpose of bringing before the voters the various amendments and bills which will appear on the ballot. Speakers will give both sides of each question, including the Water and Power bill. The meeting will be entirely for the information and education of voters, without bias on the part of the club.

Election Day
On election day, November 4th, tea will be served at the club house and all the club members will be at the club house all day for the purpose of conveying members to the polls and any member of the club, no matter what her politics, will be called for and taken to the polls in her precinct if she will call the club house and make known her wish for such help. The

HEALTH TALKS TO BE GIVEN TUES. NIGHT

"Health Secrets of Raw Foods" is the topic of a lecture to be given next Tuesday night at 8 o'clock at the Natural Life Healthatorium, 38 North Auburn. This is one of a series of regular Tuesday night health talks arranged by Dr. Fannie I. Medow, the speaker being well known as an authority on diet and health. Various other topics will be discussed at subsequent lectures. Questions are invited in connection with these lectures, affording an opportunity for the many people who are interested in health problems to profit by the discussions. These talks will be entirely free and a cordial invitation is extended to all interested.

Mr. and Mrs. C. Noshier of 191 E. Laurel are the proud parents of a seven-pound son, born Thursday, Oct. 6.

Mr. and Mrs. Mason Brown of the Wistaria Theater entertained with a family dinner party Wednesday night in honor of the birthday of their daughter, Mrs. Hugh B. Miller of Alhambra.

New Club Is Located In The Canyon

The Sierra Madre Chamber of Commerce has been instrumental in the locating of the Tourist Club International Club House in Sierra Madre. The new club house is located in Sierra Madre Canyon and will be visited by more than 300 members from all over the world on next Sunday.

Today there are 1500 branches of the Tourist Club throughout England, Australia, France, Switzerland, Belgium, Germany, Sweden and Norway; with 800 Club Houses and more than 300,000 members.

The Club House in Sierra Madre is the only one in Southern California; is a two story building with every modern convenience. A chamber of commerce committee, President Doty, Robert Mitchell and Secretary Berg will welcome the members on next Sunday at the opening of the club house.

MORE GREAT FILM STORIES AT WISTARIA

One of the best weeks ever scheduled for the Wistaria Theater is due next week. Manager Brown has secured three big features, beginning Saturday night with Colleen Moore in "The Perfect Flapper." The way the little flapper solves her own big problem has won her a host of friends. Sidney Chaplin, Frank Mayo and Phyllis Haver are among the great supporting cast. The next feature is "Neglected Wives," with Seena Owen who is herself attractive enough in any film.

Then comes "The Signal Tower." Tremendous is hardly sufficient to describe this story, the filming of which is equal to the original. Virginia Valli, Wallace Beery and Rockliffe Fellowes have the leading parts. This is a film which brings expressions of deep satisfaction from every beholder.

Nine years faithful service—that's "HUGH J." CRAWFORD. (adv)

club also will take care of small children of members while the mother is at the polls. The club stands ready to help every member do her duty on November 4th.

A list of club members will be at each polling place and some one will be there to check off club members as they vote. This has nothing to do with the election board but will be done independently by the club so it may have an accurate count of its true patriots.

The American flag will be flying on the club house on Monday, October 27th, in observance of "Navy Day" and the anniversary of the birth of Roosevelt.

Bids Opened On Reservoir Construction

H. H. Steinberger of Sierra Madre was the low bidder on the contract for construction of a concrete reservoir as part of the city's water development program when bids were opened at last night's meeting of the city trustees. The reservoir will be located close to the base of the mountains at a point northwest of the intersection of Carter and Auburn avenues.

Bids on the complete job of rough excavation and reservoir construction were as follows:

H. H. Steinberger, \$6,750; F. M. Hildebrandt, \$7,454.96; Union Construction Co., \$7,900; H. M. Hanawal, \$8,525.

Baldwin Sidewalks
Property owners on Baldwin avenue who failed to lay concrete sidewalks by private contract will have to pay a higher price under the bids received by the trustees last night. The prevailing price for private work was 20 cents a square foot, but the lowest bid received by the trustees for the remaining work was 23 1/2 cents from Evans & Turner. The higher price was due to the small amount of work remaining to be done, which must also carry the incidental expense of the legal proceedings.

Resolutions were adopted ordering work and calling for bids on the paving and sidewalk of South Hermosa and Bonita avenues, and the sidewalk of Highland avenue between Baldwin and Auburn. Bids will be received Nov. 13.

City Attorney Baker was present after his long vacation, as was Attorney Walter Dunn, who has acted in his absence. The matter of the Canyon Park improvement plans was referred to them, together with Trustee Bacon, to see how far the state law will permit variation from the specifications on which the bonds were voted. It was hoped a basis of compromise might be found on which the various factions might agree.

C. of C. Dinner Will Be Held This Evening

Four short addresses by speakers of high repute will feature the Chamber of Commerce dinner this evening in the Woman's Club house. Judge L. H. Valentine will speak on some phases of community work, Councilman Ralph Criswell of Los Angeles and Leslie B. Henry of Pasadena will speak for and against the state water and power act, respectively. Junior Chamber of Commerce work will be the subject of a speaker whose name was not available at the time of going to press. Louis Arland of San Diego had expected to be present but was unexpectedly detained.

The dinner will be served at 6:30 by the ladies of the Woman's Club, under direction of Mrs. John Osgood and Mrs. W. H. Ingraham. The number of reservations point to a splendid crowd.

CITRUS MEN ELECT COLE

Roy K. Cole, citrus and walnut grower of Whittier, was elected chairman of the Citrus Growers Department of the Los Angeles Farm Bureau at the annual meeting of the department held in Los Angeles, Oct. 15. George W. Aschenbrenner, of Covina, was elected vice-chairman. Tentative plans for the 1925 program of work of the department were outlined and a final meeting announced for November, at which time a complete program will be made out.

Mr. and Mrs. Ted Railsback of West Grand View entertained with a family dinner party on Sunday in honor of the 79th birthday anniversary of Mr. J. T. Railsback, Sr.

Legion Will Observe Day Of Armistice

Armistice Day in Sierra Madre will have a double observance under the auspices of the American Legion. In the morning a new flag pole will be dedicated in the city park. In the evening there will be a dance in the Woman's Club house.

The steel flag pole will be erected previously in the park. Along with the dedication ceremonies there will be appropriate public recognition of the donations of the post banner and the post colors.

The committee in charge of the dance consists of Arthur Evans, Dr. Gilbert S. Bovard and Victor C. Hill. They are making arrangements for a first class orchestra, the name of which will be announced later. Refreshments and feature dances will contribute to the enjoyment of the evening. Tickets will be on sale soon and the proceeds will go to the local Legion relief fund.

At the post meeting Wednesday evening the following resolutions were adopted:

Whereas, the members of Sierra Madre Post are fully appreciative of the valuable service rendered by the American Red Cross during both time of war and time of peace; and Whereas, the members are particularly aware that the work done by the local chapter is of such value to the community as to make it imperative that every citizen support the local organization;

Resolved, that Sierra Post No. 297 does hereby go on record as endorsing and upholding the local chapter of the American Red Cross and pledges its support to the Annual Roll Call.

C. P. Chandler of Los Angeles was bound over to the superior court on charges of driving an auto while intoxicated, after a hearing before Recorder Forman Monday morning. He was represented by Attorney J. W. Marchetti.

Farm Bureau Officers For Coming Year

W. A. Johnstone, citrus grower of San Dimas, was elected president of the Los Angeles County Farm Bureau at its annual meeting Thursday, October 16, in Los Angeles. Mr. Johnstone is well known throughout the county and state because of his work as a member of the State Water Commission, as well as former member of the California State Legislature. His efforts in behalf of water conservation have been continuous in the county.

Other officers elected at the meeting were, first vice president, T. L. Lambert of El Monte; secretary, J. C. Hayes, of Roscoe. A new assistant secretary, Mr. Sidney Anderson, has been hired by the Farm Bureau to put in full time for the organization in the county. Mr. Anderson is a graduate of the College of Agriculture and has served with the State Land Settlement Commission and with the Veteran's Bureau.

The meeting was featured by the annual reports of the different Farm Bureau Departments, including Citrus Growers, Deciduous Growers, Walnut Growers, Truck Crop Growers and the Poultrymen's and Dairy-men's Departments. A. C. Hardison, president; J. W. Nelson, secretary of the State Farm Bureau Federation, and J. J. Deuel, head of the Public Utilities Department, also addressed the meeting which was held in the Farm Bureau headquarters.

The second card party of a series, given by St. Rita's Club, for the furnishing fund, will take place next Wednesday, October 29. It will be given at Mrs. C. B. Klunk's home, 142 Santa Anita Court.

Judge "HUGH J." Crawford's record recommends him. (adv)

SECOND CARD PARTY TO BE HELD MONDAY

The second of a series of monthly card parties given by the Eastern Star chapter in the Masonic Hall will be held next Monday night. These parties are planned for the enjoyment of that numerous class of people who like to get together just for the enjoyment of games and social mingling and without the bother of refreshments, programs or other extraneous features. The first party was well attended and much enjoyed. The admission charge of 25 cents goes to the chapter furnishing fund.

Many officers and members of the chapter have been attending the sessions of the Grand Chapter of California this week at Hotel Huntington, Pasadena. Mrs. George B. Morgridge, matron of the chapter, has been spending the week there as the chapter representative. The sessions will close tonight.

Mr. and Mrs. C. L. Dennis and family of Lankershim entertained last week in honor of Mr. and Mrs. George P. Rikeman, 29 West Live Oak, celebrating their silver wedding anniversary.

Masons Have Big Crowd at Steak Feast

Members of Sierra Madre Lodge No. 408, F. & A. M., and visiting brethren to the number of 70 enjoyed a steak dinner Tuesday night that would have done credit to a metropolitan chef. It was prepared by Bill Doty and Hop Andrews, with the assistance of Jim Hawks, Frank Spencer, Frank Cox, Guy Steinberger and a number of others, and the tributes to their prowess were as warm as the fellowship which prevailed during the evening.

D. C. Ashmore, senior warden, spoke briefly following the dinner, concerning the proceedings of the Grand Lodge of California which had just closed. The election of David J. Reese as Grand Master, and Will H. Fisher as Junior Grand Warden were of particular interest because of recent visits paid by both men to the local lodge. He also reported that the Grand Master had asked George B. Morgridge, past master of Sierra Madre lodge, to serve as a member of the grand lodge committee on Masonic education for the coming year.

The degree of Master Mason was conferred upon E. D. Topping later in the evening.

Miss Clare Phelan of 78 South Hermosa avenue has been appointed local representative of the Real Silk Hosiery Co., by C. W. Stewart, who has had charge of this territory for some time.

L. C. Tucker, H. C. Reavis, Greer Caskey and Mr. Royer of Alhambra went to Imperial valley last Friday for a few days of duck hunting. They found a friend who told them how to go about it for better results on the next trip.

L. Farinacci of 282 Santa Anita Court had a remarkable escape from injury when his Chevrolet touring car collided with a Buick on the Foothill Boulevard near Glen Ave. Sunday night. Although the Chevrolet was badly wrecked none of the occupants was injured beyond minor bruises and scratches.

KRAUTER-MEDLEY
Miss Lois Krauter, formerly of Sierra Madre, and Howard Medley were united in marriage Thursday October 2. The ceremony was performed in Pasadena, at the Hollister Avenue Methodist Church. Mrs. Medley's sister, Miss Myrtis Krauter, as maid of honor, was her only attendant. The bride is the daughter of Mr. and Mrs. J. W. Krauter. The groom is a draftsman employed by the Southern California Edison Company in their Los Angeles office. Mr. and Mrs. Medley are living temporarily in Pasadena. They expect to locate in Los Angeles.

Flood Light For Baldwin Is Planned

At the regular monthly meeting of the Board of Directors of the Sierra Madre Chamber of Commerce held Monday evening the following business was brought up for consideration:

Flood lighting for Baldwin Avenue from Foothill Boulevard to Central Avenue. A committee consisting of W. D. Richards, Chairman, Woodson F. Jones and Mrs. J. H. Wright was appointed by President Doty to consider the project. As there is a considerable surplus left over from the Electric Sign Fund it was felt that the Flood lighting of Baldwin Avenue could be undertaken.

The proposition of the Pasadena Military Academy and the National Lutheran Home for retired Ministers of locating in Sierra Madre was endorsed and the Secretary instructed to render every assistance possible to those of the institutions interested.

The Junior Chamber of Commerce was represented at the board meeting by President Cover and Secretary Krakower and desired the senior chamber to initiate action on several projects of great importance for this community. President Doty appointed a committee to confer in conjunction with the Juniors composed of R. R. Hartman, Chairman, H. E. Allen, and Robert Mitchell.

IN REPLY TO MR SEELEY

5347 Lexington Ave.,
Hollywood, Oct. 21, 1924

Editor Sierra Madre News
Dear Sir:
My attention has been called to a communication in your paper over the signature of Frank B. Seeley. Mr. Seeley accuses me of a "slip" of the tongue. My tongue has not been "oiled" in this campaign, therefore it does not "slip." Neither could it be so oiled, as I am a volunteer in the battle for national honesty and clean politics, and for the restoration to the people of the rights and the property which belong to the nation and for the preservation of a Constitution now threatened in its fundamental principles by the hordes of special privileges, of which Mr. Dawes is a living exponent.

The connection of Mr. Dawes with the fraudulent Lorrimer Bank is a matter of public record, and, as President of the Central Trust Company, he and his brother put over that deal which his own directors have testified under oath that they neither knew of nor participated in.

The Supreme Court of Illinois has handed down its decision upon Mr. Dawes and the bank he represents, and after a seven years legal battle, Dawes has been assessed a fine which in part makes restitution to the four thousand defrauded Lorrimer depositors, most of whom were working people. LOU V. CHAPIN.

DOLLAR DAY BARGAINS AT SADLER STORE

J. F. Sadler announces another Dollar Day sale for next Monday. An unusually fine list of bargains is offered for this month's event, in the announcement on another page of this paper. By giving real bargains at these sales Mr. Sadler has succeeded in convincing an increasing number of people of the real economy of trading right here in Sierra Madre.

A CARD

TO WHOM IT MAY CONCERN:
This is to tell you that you have accomplished the evil, poisonous, murderous deed you planned to do. And this is also to pay tribute to the memory of our devoted, faithful friend and companion, the finest black prince of a Dog that ever drew a breath of life.
Mr. and Mrs. Fred Hooker-Jones.
Mr. Morey Elmore.

(POLITICAL ADVERTISEMENT)

LA FOLLETTE

The election of a president is no more distinctly a national matter than the reelection of Senator Robert M. LaFollette in Wisconsin. For no public official in the White House, on the supreme bench or in Congress in a generation has been more truly and worthily a national public servant than Senator LaFollette. No section, no class, no state, no cult or creed or even party has been able to win his support as a United States Senator away from a broad, courageous, intelligent conception of his duty to this whole nation.

His record is a guide in the Senate to the brave, wise, statesmanlike course in every crisis. Robert LaFollette is by odds the biggest man in the United States senate. He has seen more of his demands met, more of his ideals realized, more of his plans matured into reality than any Senator who has been in public life in this generation.

Moreover, he has seen those demands met, ideals realized and plans matured, not by sitting idly by and hoping, but by fighting with all the ardor of a crusader and all the intelligence of a trained political general. What a record of political victories his career has been, and not once has chance favored him. Every fight has been won upon its merits after a fierce contest. He has hit the enemy line at its strongest point, and has gone through. So he is battle-scarred and weighted with enemies. But his enemies are his best recommendation. His scalps are his laurels.

For not once has he ever lined up with special privilege. Always has he been fighting for more equitable economic conditions for the people; always has he stood for broader and more democratic control of this government. The aristocracy of organized aggrandized wealth and of crafty political plutocracy knows Senator LaFollette for its uncompromising foe. It never sleeps. It is after him now. His fall will mean a triumph of money and privilege in America.

Of course it will not fight fair—this secret power that stalks in every state seeking to sweep brave, clean men from politics. Senator LaFollette will have to meet lies; he will have to fight against half truths twisted into vicious falsehoods. He will have to stand against malice posing as patriotism, and he will have to combat not merely open bribery, but corruption, masking as state pride and national honor.

Yet he will win. The good sense and good judgment of the people of Wisconsin have been too often tried to admit of a doubt. And when he wins, what a victory it will be, not merely for Wisconsin, but for America.—(William Allen White, in Emporia Gazette, July 19, 1924.)

use
ICE
prevent waste

SPEND a few cents for ice regularly winter and summer, never let your supply melt too low—and you'll save dollars on food bills!

The regular use of ice is one of the least expensive and at the same time, most important, of all your housekeeping items. No good restaurant or hotel would think of trying to do without ice in the fall or spring any more than in the summer. It would be too costly an experiment.

Ice enables you to have proper refrigeration—prevents waste, and is the safe way to insure purity in food.

Ice is not an expense in any sense of the word. It saves its cost to you many times over!

MONROVIA ICE CO.

Main 190

71 East Montecito

ICE
SAVES ITS COST

Those Eighteen Propositions

Resuming consideration of the eighteen propositions to be voted on at the November election, brings us to No. 8, a senate constitutional amendment having to do with the pay of city and county officers and with the employment of deputies. This is a general law giving to the legislature some powers now reserved to the constitution, and apparently with safety. This measure should be approved as it will tend to cut down the number of constitutional amendments required to accomplish necessary but relatively unimportant legislation.

Klamath River Fish and Power

Number 11 is an initiative measure originating with the state fish and game commission, making a fish and game district of the Klamath River and prohibiting the construction of any dam or artificial obstruction in the waters of the district. Ostensibly this is for the protection of the salmon spawning waters of the Klamath, the commission claiming that this is the last remaining river of any size where salmon are propagated. It would seem that to gain this end the measure would completely stop the development of 500,000 potential horse-power along the river. The federal power commission will not grant any license for hydro-electric development on the Klamath or any other river frequented by migratory fish until the federal bureau of fisheries is satisfied that conditions favorable to fish migration and culture are protected. This seems to afford protection making the initiative measure unnecessary, and therefore calls for a negative vote.

Municipal Courts

Proposition 12 is a senate constitutional amendment providing for the establishment of a new class of municipal courts in cities of 40,000 or over. Jurisdiction of these courts would be limited to misdemeanor cases, actions of \$1,000 or less, and rental cases where the rental value is \$100 or less per month. This would eventually do away with the police and justice courts with their present limitations, and these courts would tend to relieve the superior court of a large amount of business which now clutters up their calendar. Small cities and counties would not be affected except as they would be benefited by the last named feature. Vote Yes.

Eminent Domain Proceedings

Proposition No. 17 is a constitutional amendment designed merely to clarify the present provisions governing eminent domain or condemnation proceedings. The present law defines the powers of the state, counties, cities, towns and water districts in this matter, and the amendment merely adds "irrigation districts or any other public corporation or district." Vote Yes.

When Voters Change Precincts

Proposition No. 18 is an assembly amendment to the so-called Absent Voters Law, which was adopted two years ago and which has not been sufficiently used to justify its passage. However the present proposition is designed to permit voting by a class of people not included within the scope of that law. It provides that "any person duly registered in one precinct and removing therefrom to another precinct within the same county within 30 days of an election shall, for the purpose of such election be deemed a resident and qualified elector of the precinct from which he so removed until after such election." No elaborate machinery is required to put this into effect. The voter simply appears in person and casts his vote as if he had not changed his residence to another precinct within the last 30 days. This would permit voting by many people who are now deprived of their votes without any good reason or fault of theirs. No particular danger of fraud appears to be involved.

This proposition should not be confused with the Absent Voters Law, which was good in theory but not justified by the use made of it in practice. It was designed to encourage voting by travelers and others who might be too far away from home to vote on election days. Out of 531,000 voters registered in Los Angeles county only eight took advantage of the method provided for absentee voting.

Proposition No. 18, on the other hand, appears to be a practicable method of encouraging voting on the part of people who are able and willing to vote but are now prohibited by the mere fact of changing residence, sometimes from one part of town to another, within 30 days of election. Vote Yes.

The Tax Propositions

Seven of the propositions on the ballot are concerned with taxation. These will be considered together next week, together with a summary of the recommendations for the whole series.

Water and Power

Proposition No. 16 is the same Water and Power Act which was on the ballot two years ago. At that time it was voted down by a large margin and appears to be doomed to an even heavier defeat this year. It proposes a state owned and operated hydro-electric and water conservation system, with an authorized capital of \$500,000,000 represented by bonds of the State of California.

In deciding to vote against this proposition, I arrive at my conclusion by a different process of reasoning than most of its opponents. It is an enterprise I should like to see tried and believe it could be made a success, under favorable conditions. To be a success the enterprise would have to be in the hands of its friends, rather than in the control of an unsympathetic state government. So far the people of California have never elected nor do they seem likely to elect soon a state administration, from governor down, which would be favorable to the enterprise. When the voters of the state decide they want a state water and power system they will probably elect an administration favorable to the enterprise. In the meantime, to vote for such a proposition as the present one would be useless. I shall vote No, but refuse to become wrought up over the argument with my good friends on either side.

**Your Support
Is Needed by
Red Cross**

Strongly endorsing Red Cross activities and urging support of the local chapter in the annual Roll Call, the directors of the Chamber of Commerce Monday night adopted the following resolution:

Whereas, the Sierra Madre Chapter of the American Red Cross will conduct the Annual Roll Call during the period beginning with Armistice Day and ending Thanksgiving Day, and

Whereas, the Red Cross Association is the instrument by which the American people give expression to their unselfish humanitarianism, and is carrying on an effective system of relief in local and national emergencies, and is an indispensable factor in the betterment of human life everywhere,

Be it resolved, by the Board of Directors of the Sierra Madre Chamber of Commerce that the Red Cross deserves the encouragement and support of every member of our community, and that every adult be urged to contribute at least one dollar to the cause and be enrolled as a member of the one national organization which is equipped and ready in an instant to answer the call of distressed humanity in every emergency.

**BABY TRACTORS
GET EYES OF
ALL PASSERS**

Miniature Fordson tractors so perfect that they attract old as well as young, have made an interesting exhibit in the window of the Sierra Madre Garage this week. Each little cast iron tractor has a perfect little Oliver plow attached. These are real Oliver plows, direct from the Oliver factory.

Mr. Steinberger, local Ford agent, is giving them away as premiums with the Dearborn Independent, the great Ford publication, and one of the liveliest weeklies published in America. It is a well printed, well edited periodical with a viewpoint different from the average.

The little tractors and plows would sell for a dollar to a dollar and a quarter, retail. But Mr. Steinberger gives them free with the Dearborn Independent at 1.50, the regular prices. He is making the offer for this month only in an effort to send in a specially large quota of subscriptions. It is a good chance to get a good magazine, and at the same time a free gift for a child, good now or at Christmas.

**LOCAL POULTRY
TAKES PRIZES
AT POMONA FAIR**

Sierra Madre poultry fanciers are rejoicing over the success of two local exhibitors at the county fair being held at Pomona this week who have received so many prizes on their birds that the results are somewhat complicated. The two fortunate pens were of the Columbian Wyandotte breed and from the score cards every prize that was not won by one of the pens must have been won by the other.

William C. Kennedy returned from the fair with three first prizes, three

second prizes, one third prize, two fourth prizes and one fifth prize.

Mrs. R. R. Allen's pen received one first prize, one second prize, three third prizes and one fourth prize.

Henry C. Turck, formerly of Sierra

Madre, but now living in Pomona, was also an exhibitor in this class and received a number of prizes on his birds. Since Mr. Turck's birds were formerly from Sierra Madre, the local poultrymen naturally claim this honor as well.

To make the hair beautiful and free the scalp of all disorders there is nothing to equal the old reliable Lucky Tiger Hair Remedy. Money back guarantee at barbers and druggists.

SIERRA MADRE NEWSPublished by
THE SIERRA MADRE PRESS, Incorporated
Telephone Black 42
GEORGE B. MORGRIDGE, Managing EditorEntered as second class matter at the post office at Sierra Madre, Calif.,
under the act of March 3, 1879**EDITORIAL COMMENT****Digging Into The Past**

Few persons realize the enormous amount of work that is being done by scientific men in exploration of ancient ruins and unearthing fossils of remote ages, whereby human knowledge of the past is being enriched daily.

While much publicity was given to the discovery and contents of King Tut's tomb, dozens of even more important finds have been given scant attention.

Tombs of Chinese emperors have been discovered in Mongolia which are much older than King Tut-Ankh-Amen's and only last month a Russian expedition in Mongolia found many skeletons of hitherto unknown animals. Here also were found last year eggs of the dinosaur estimated to be more than 25,000 years old, while two buffalo statues in clay, believed to be more than 20,000 years old were found in a cave in France.

It is established from recent researches that the Maya civilization of Yucatan is older than that of Egypt, according to the best authorities. Dr. William Gates declares that as a result of the Yucatan discoveries "history will be re-written."

Some of our leisure could be profitably employed in reading of these wonderful developments, which are gradually throwing more and more light upon the origins of the human race.

Leave It to Teacher!

Parents who do not take some interest in the education of their children beyond merely sending them to school fall far short of the duty they owe to their offspring and to society.

The progress of the child in his school work should be carefully watched and aided by admonition or approval as circumstances require. Too many parents place the entire responsibility upon the teacher and fail to see that the necessary home work is punctually performed.

Monthly grades should be given diligent attention and steps taken to spur the child to greater effort in connection with subjects in which he appears to be backward. Consultation with the teacher should be had when poor grades become too common. Sometimes a physical defect is responsible; then the attention of a physician is required.

Parents who are too indifferent to give some attention to these things are unfit to be parents. And there are many such.

One thing to the credit of the "bob" is that it has elevated the tone of barber shop conversation.

"Canned Food Week" is announced for November 8 to 15. It will not be much of a novelty to most folks.

About the only job some fellows seem able to hold is that of husband.

Soon we may expect to see someone launch an "Own-Your-Auto" movement.

One writer calls the presidential race an infernal triangle.

Some folks are so wrapped up in themselves that they make a very small package.

Ten Business Commandments

The following "Ten Commandments for Business Men," said to have been formulated by a newspaper man of San Francisco, are worthy of the consideration and try-out of all business men:

- 1.—Be an optimist. Confidence is infectious.
- 2.—Make but few promises. Keep every promise made.
- 3.—Every question has two sides. Always hear both in detail.
- 4.—Study your people well. Put each where he can do his best work.
- 5.—Never show discouragement. A stout heart will never say die.
- 6.—Don't hold spite. Correct when it is necessary, but give afterwards.
- 7.—Notice good work as well as bad. Give both credit and blame justly.
- 8.—Be fair. You often have to act as judge, and therefore must be just.
- 9.—Control yourself. Anger is too valuable to use except on special occasions.
- 10.—Take your full share of the blame. Sharing both blame and praise with your people is a big part of the secret in managing folk.

Try Our Wantads for Results**Boy Scouts' Hand Craft Exhibition**

Troop One, of Sierra Madre, has a very creditable display of handcraft, scoutcraft and woodcraft work in a separate booth of the Boy Scout Exposition which has been under way all this week at the Carmelita House, Pasadena. This exposition is a Boy Scout show in every particular, with its wonderful displays of individual, patrol and troop crafts from the many troops of the Pasadena district.

Many thousand visitors have seen the exhibits, and marveled at the things shown. The big building, in Carmelita Park, is gay with flags, pennants and troop regalia, in addition to the very attractive arrangement of the booths.

Sierra Madre's corner was arranged by Scouts Billy Jenkins, Bernard Bodine and Desmond Stovall. These boys have individual displays, in addition to the thirty or more pieces from other scouts of the troop. Among them are Ivan Munson, with some very fine exhibits in steel work and blacksmithing; Charles Hull, Merrill Jensen, John Henderson, Harold Spears, Dick Barbour, and several others of both the senior and junior divisions have exhibits in handiwork.

Congregational Church

The services of the First Congregational church next Sunday morning begin with the Church School session at 9:45. The regular morning service will be held at 11. Dr. Tate will speak on "The Procession of Life." There will be special music by the choir. A feature of the morning service is "The Children's Sermon."

If you are without a church home this church cordially welcomes you to fellowship.

The evening service at 7:30 will be held in the Wistaria Theatre.

Work for the "County Fair", to be held in the Woman's Club house Dec. 5th, by the ladies of the Congregational church is well under way and the committees have work on hand for all interested, at the church next Tuesday morning at 10 o'clock. At noon one hot dish and coffee will be served, the ladies bringing with them what they want beside this. Bring your thimble, scissors, etc., and your ideas for the Fair, and if personal contributions of fancy work, household linen, aprons, or articles for the white elephant table are ready, the committee will be glad to take charge of them.

J. A. Sullivan has sold his ranch on East Live Oak and the family are planning to move to Los Angeles in the near future.

Hartwood, the lovely home of Mrs. Hart, was the scene of a delightful luncheon Monday when the courtesy committee of the Sierra Madre Woman's club was entertained by its chairman. All but one of the members of the committee were there and plans for making the club meetings pleasant socially as well as enjoyable because of the fine programs, were matured.

Don't be misled! Elect "HUGH J." CRAWFORD. (adv)

Mrs. Charles Webster of Honolulu reached Sierra Madre on Saturday last, coming to Wilmington by steamer Calawail. He will spend some time here visiting his sister, Miss Lydia M. Webster of Bonita avenue and other members of his family, Mrs. E. H. Vannier and Mr. Tasker M. Webster. Mr. Webster visited in Sierra Madre about six years ago, and sees many changes since then.

Two "Crawfords" on the ballot—"HUGH J." is the Judge. (adv)

Progressive
Women Active
In Campaign

All Progressive women are invited to the LaFollette tea, at the club house, in the Osgood room, on Wednesday afternoon at 3 o'clock. Miss Helen Todd of Washington, D. C., who is touring the state with Mrs. William Kent and Mrs. Fremont Older for the LaFollette cause, will speak.

A question box, with general discussion of Supreme Court decisions affecting state and national laws relating to women and children, will be a feature.

The hostesses will be Mrs. A. F. Snell, Mrs. J. W. Jameson, Miss Emma Jameson, Mrs. W. J. Lawless, Mrs. Tyree, Mrs. Harold Carewe, Mrs. E. A. Thomas and Mrs. Homer Tuttle.

Rev. J. Stitt Wilson, California's most eloquent platform speaker, has canceled his lecture engagements with eastern universities and returned to take part in the LaFollette-Wheeler campaign in his own state. Dr. Wilson, an apostle of Christianity as a way of life, of liberty, justice and human welfare, is well remembered for his lecture course in Sierra Madre. An effort is being made to have Dr. Wilson include Sierra Madre in his foothill speaking tour. Failing this, excursions to larger cities, to hear his message.

The LaFollette-Wheeler Central committee has endorsed Charles H. Randall for congress and his local friends will work with renewed energy. This endorsement comes because Mr. Randall pledges support to the U. S. Reclamation department program for Colorado River development embodied in the Swing-Johnson bill. This bill, endorsed by chambers of commerce and practically all California organizations, provides four features, flood control, water storage for irrigation, power, and the all-American canal, all under full government control.

Local LaFollette-Wheeler women are also joining the non-partisan group supporting W. Fleet Palmer of Monrovia in his campaign for state senator. Mr. Palmer's definite stand for the child labor amendment and adequate budget for forest protection and welfare institutions has resulted in this crystallization of sentiment in his favor.

Mr. and Mrs. W. L. Gilliland and two sons, who have been visiting the R. J. Lords for a few days, returned Tuesday to their home in Santa Barbara. On their way here they met with an automobile accident in which the younger boy was cut by flying glass about the head and their return home was delayed by the repairs necessary on their car.

Warning! Two "Crawfords" on the ballot—Elect Judge "HUGH J." (adv)

CLASSIC TALE
SUNDAY NIGHT

Nearly everybody who reads at all has read Robert Louis Stevenson's famous story, "Kidnaped." It is one of the classics of literature and will still continue to live when our modern sex novel with its trashy plot and pseudo psychology has gone into oblivion.

This story will provide the screen feature at the next Sunday evening's community service at the Wistaria Theatre. This will be the last of the services to be held in the theatre. Beginning with the first Sunday in November the services will be held in the First Congregational church. The special features of the service will be continued. A modern up-to-date projector equipment of the best type is being installed. It is hoped that with the change more stress may be laid on community singing and all those interested in the features of the service are cordially invited to attend.

The service begins promptly at 7:30 p. m. and you must come early if you wish a good seat. We are constantly turning away late comers for lack of room.

Elect Judge "HUGH J." CRAWFORD to the Superior Court. (adv)

JUNIORS ARE ANXIOUS FOR BALL DIAMOND

The Junior Chamber of Commerce organized a week ago, is an up and coming organization. The charter members announced that they are not going to let any grass grow under their feet and it looks as though the senior organization would have to get pepped up some to prevent the youngsters from outstripping them.

The first project to which the Juniors have devoted themselves is the beginning of an athletic field on the city land in the arroyo—the land that the parent organization is desirous of developing into a large recreational park. An energetic crew of Juniors were all ready to start actual work in brush clearing and leveling for a baseball diamond on Saturday when they struck a snag in the fact that they had overlooked obtaining permission from the city fathers for the work. However, the majority of the trustees are heartily in favor of the enterprise so the work was merely postponed till formal permission could be obtained.

The Juniors feel that they will be doing something to make the name of Sierra Madre ring down the halls of Time when they have a baseball team that can mop up the ground with any rival team from neighboring cities—and that is the sort of team they propose to have. They expect to help on many enterprises not in the athletic class but the baseball team and a place to have athletic sports is the first piece of bacon they have started after.

CIVIL SERVICE EXAMINATION CLERK-CARRIER

An examination for the position of clerk or carrier (village delivery) in the post office will be held in this city on Nov. 15. Applicants must be citizens of the United States between the ages of 18 and 45 years on the date of the examination. Age and height and weight requirements are waived in the case of honorably discharged soldiers, sailors and marines.

Applicants must be physically sound and male applicants must be not less than 5 feet 4 inches in height in bare feet and weigh not less than 125 pounds without overcoat or hat.

For application blanks and further information relative to this examination address Florence D. Wicks, local secretary Board of U. S. Civil Service Examiners.

GROUNDS USED ONLY DURING SCHOOL HOURS

The school board has found it necessary, in order to protect the school children, to adopt and enforce a resolution forbidding the use of the school grounds at any time other than during school hours. Because of the impossibility of providing supervision for the children on the school grounds after school hours and on Saturdays, this action was taken.

The co-operation of parents in keeping children off the grounds will be appreciated.

ELIZABETH STEINBERGER,
Principal.

CHOIR PLANS GYPSY PARTY NEXT MONTH

The Gypsy party planned by the choir of the Episcopal church will take place on Friday, Nov. 7, at the Parish house. The choir, as a band of Romany Wayfarers, will entertain with song, dance, and stories. Many of the community will avail themselves of the opportunity to congregate and enjoy the evening in the guise of gypsies, hoboes, bandits, or highwaymen. To preserve order among the many tribes of the road, police officials are to be on hand. They will also judge costumes and characters depicted. Prizes are to be awarded. There will be gypsies to tell fortunes and to forecast the future.

Movable Air Anchor

An airplane suspended from a dirigible was launched in mid-air at Dayton, Ohio, during the recent international air races and after being released flew away under its own power. Major General Patrick, chief of the Army air service, declares that this is another epoch-making feat to the credit of American flyers.

The Woman's Guild of the Church of the Ascension will meet as usual on Friday afternoon in the Parish house. The hostesses this week are Mrs. Spencer Howard and Mrs. William Lees.

Remember "HUGH J." Crawford is the Judge. (adv)

Citrus Men
Will Gather
At Whittier

All the important phases of the handling of citrus soils have been planned in a comprehensive program of lectures and field demonstrations to be held at Whittier the week of October 27 to November 1, in the extension school in citrus culture to be conducted jointly by the agricultural extension service and the division of subtropical horticulture. Following is a list of the lectures and the hour at which they will be given in the Whittier high school. Growers who cannot attend the entire week's course are invited to attend as many lectures as possible.

"Fundamentals of Soil Fertility," Monday, Oct. 27, 2:45 to 3:45, by W. R. Schoonover.

"Fundamental Principles of Orange Cultivation," Thursday, Oct. 30, 8:30 to 9:30, by W. R. Schoonover.

"Cultivation of Adobe Soils," Friday, Oct. 31, 8:30 to 9:15, by W. R. Schoonover.

"The Relation of Cover Cropping to the Fertilization Program," Friday, Oct. 31, 9:15 to 10:15, by W. M. Mertz.

"What Not to Spend Money for in Citrus Fertilization," Saturday, November 1, 8:30 to 9:30, by W. R. Schoonover.

For the Next War

In a recent address Major General C. C. Williams enumerated and described many new and formidable war machines, including improved machine guns, trench mortars, tanks and anti-aircraft guns. He also described aerial bombs six times as destructive as those dropped by Zeppelins during the world war and told of new guns for defense of the Panama canal which would move on railroad tracks and sweep the sea for 23 miles with 16-inch shells.

Everyone knows Judge "HUGH J." Crawford should be elected. (adv)

Pictures by Wireless

Colonel E. H. R. Green, multimillionaire son of the late Hetty Green and radio fan, has succeeded in transmitting motion pictures sixty feet by wireless. Two experts from Boston "Tech" have been detailed to assist him in perfecting the wonderful invention to cover greater distances and it is predicted that moving pictures will ultimately be broadcasted as music is broadcasted now.

FAIR WEIGHT

George Butterworth and Pearl Huntzinger were married at the Converse, Ind., fair grounds in the presence of a monster crowd. The groom weighs 410 pounds and the bride 390.

Mrs. Drury Victor Haight, who had been spending about three weeks with her parents, Mr. and Mrs. John Lowe of Carter avenue, returned to her home in Oakland, where Mr. Haight is assistant pastor of the First Presbyterian church. Mr. and Mrs. Lowe and Mrs. Haight drove down from Oakland upon their return from their Alaskan trip.

HUGH J. SAYS
WATCH NAME
OF CRAWFORD

"To my mind," said Judge Hugh J. Crawford, in speaking of the coming election, in which he is a candidate for one of the vacancies on the bench of the Superior Court, "there is nothing more important to the voters of Los Angeles county than to be thoroughly posted with the full name of each candidate."

"For instance," said Judge Crawford, "this is especially necessary with regard to my own candidacy for two 'Crawfords' are on the ballot for the same office, which means that my thousands of friends and backers must remember my first name, 'Hugh J.', and vote for it, instead of placing their 'X' after my last name, 'Crawford.'"

"I was exceedingly gratified with the support rendered me at the primaries. However, I do believe that I lost many votes due to the fact that a large number of voters did not remember the name, 'Hugh J.' Crawford, and voted only for the last name, which in many cases may have counted a vote for the other Crawford."

Forest Fire Champs Right In California

California for the second successive season is winner of the National Fire League championship of the United States. After getting off with an indifferent start in the face of a bad season, and trailing for months in the second division, she staged a spectacular come-back in July and August and rapidly climbed to first place. With a total of 1,810 fires which up to September 30 had burned over 605,000 acres of Government and private lands, and cost \$786,000 to suppress, there is no possibility, experts say, of any state in the Union overcoming lead in the few weeks of play-season left.

The citizens of the Golden State, in spite of the Federal ground rules which greatly restricted their play-field, hung up a record of 59 per cent out of every 100 fires that occurred. Lightning, which always stands high on the forest fire battling list, slumped badly in midseason, but finished strong with an average of 41 per cent.

Smokers were the "Babe Ruth" of the fire league, and scored 43 per cent of all man-caused fires with campers second at 15 per cent. Other league leaders in destruction were brush burners, railroads, lumbermen and incendiaries. Contrary to all known rules of good sport, errors and carelessness on the part of citizen-players were largely responsible for the remarkable showing made by the State.

In the race of this unequalled record, the Forest Fire League of California bids fair to close its season with the greatest financial loss ever experienced. Conservative estimates place the forest fire damage at over \$5,000,000, which will eventually come out of the pockets of the tax payers of the state.

MOTORISTS IN CAMPAIGN TO PROTECT PETS

Deliberately maiming dogs and cats is charged to motorists in complaints reaching the Automobile Club of Southern California from humane societies. It is stated that some motorists maliciously take the lives of animal pets, regardless of the fact that the offense is punishable under the state anti-cruelty laws. Humane societies are planning to prosecute such violators in the future.

It is urged by these societies that drivers refrain from carrying dogs on unguarded running-boards of cars, as this frequently results in serious injury to the animal. It is believed this is done more through thoughtlessness than any other cause as usually the unprotected pets on the running-board are loved much and valued highly.

This plea for protection of pets is being made general throughout Southern California in the hope that there will be a lessening of injuries and fatalities.

Mrs. Frank L. Lovell returned home yesterday from Salt Lake City where she was called by the death of her mother, Mrs. Abbott. During her absence Mr. Lovell's sister, Mrs. Cardell, of Coronado, kept house for him and took care of the baby.

Three Opinions On Robert LaFollette

WILLIAM E. BORAH

Republican Senator from Idaho

There are some qualities never denied to Senator La Follette even by his most pronounced opponent; great industry, untiring effort, incorruptible motives and a high sense of public duty.

They may say he is a radical, but everybody recognizes in him a man of exceptional intellectual power and moral purpose. To my mind he is a public servant in the truest and best sense of the term.

THADDEUS H. CARAWAY

Democratic Senator from Arkansas

The imputation, wherever made, that La Follette is become merely a "voice of protest" is worse than ridiculous. It is untrue. Whether you agree with LaFollette or not, you must admit that he never speaks in the Senate that he does not bring to his subject a mass of reliable information and argument that wins him attention on both sides of the chamber. . . . He is always effective.

You know you can look down LaFollette's record from the time he entered the Senate and you will find it like a gun barrel. It is straight. La Follette has unwaveringly clung to the broad principles he believes in, with the result that he has won the respect and admiration of all of his colleagues for his ability, his intellectual integrity and his downright fearlessness.

GEORGE W. NORRIS

Progressive Senator, Nebraska, Who Saved Muscle Shoals

Senator La Follette is not only a courageous fighter against wrong and evil, but his long public record shows him to be one of the most constructive statesmen of the present day. . . . He was the author of the seaman's act, a law that abolished slavery on the high seas.

In the fight to tax wealth for carrying on the war, he proposed measures that would have relieved the poor and raised the money by taxing those who had made millions out of the war.

Had his proposition on railroad legislation been enacted into law, we would not now be confronted with a transportation system which injures the manufacturer, overburdens the consumer and ruins the farmer. He has always offered a remedy when he has condemned an evil.
